BLACK THUNDER

They say, when you go black, you don't go back. Considered for a very long time as the devil's colour, we have seen ad nauseam how black accentuates the beauty of whatever it touches, especially the white.

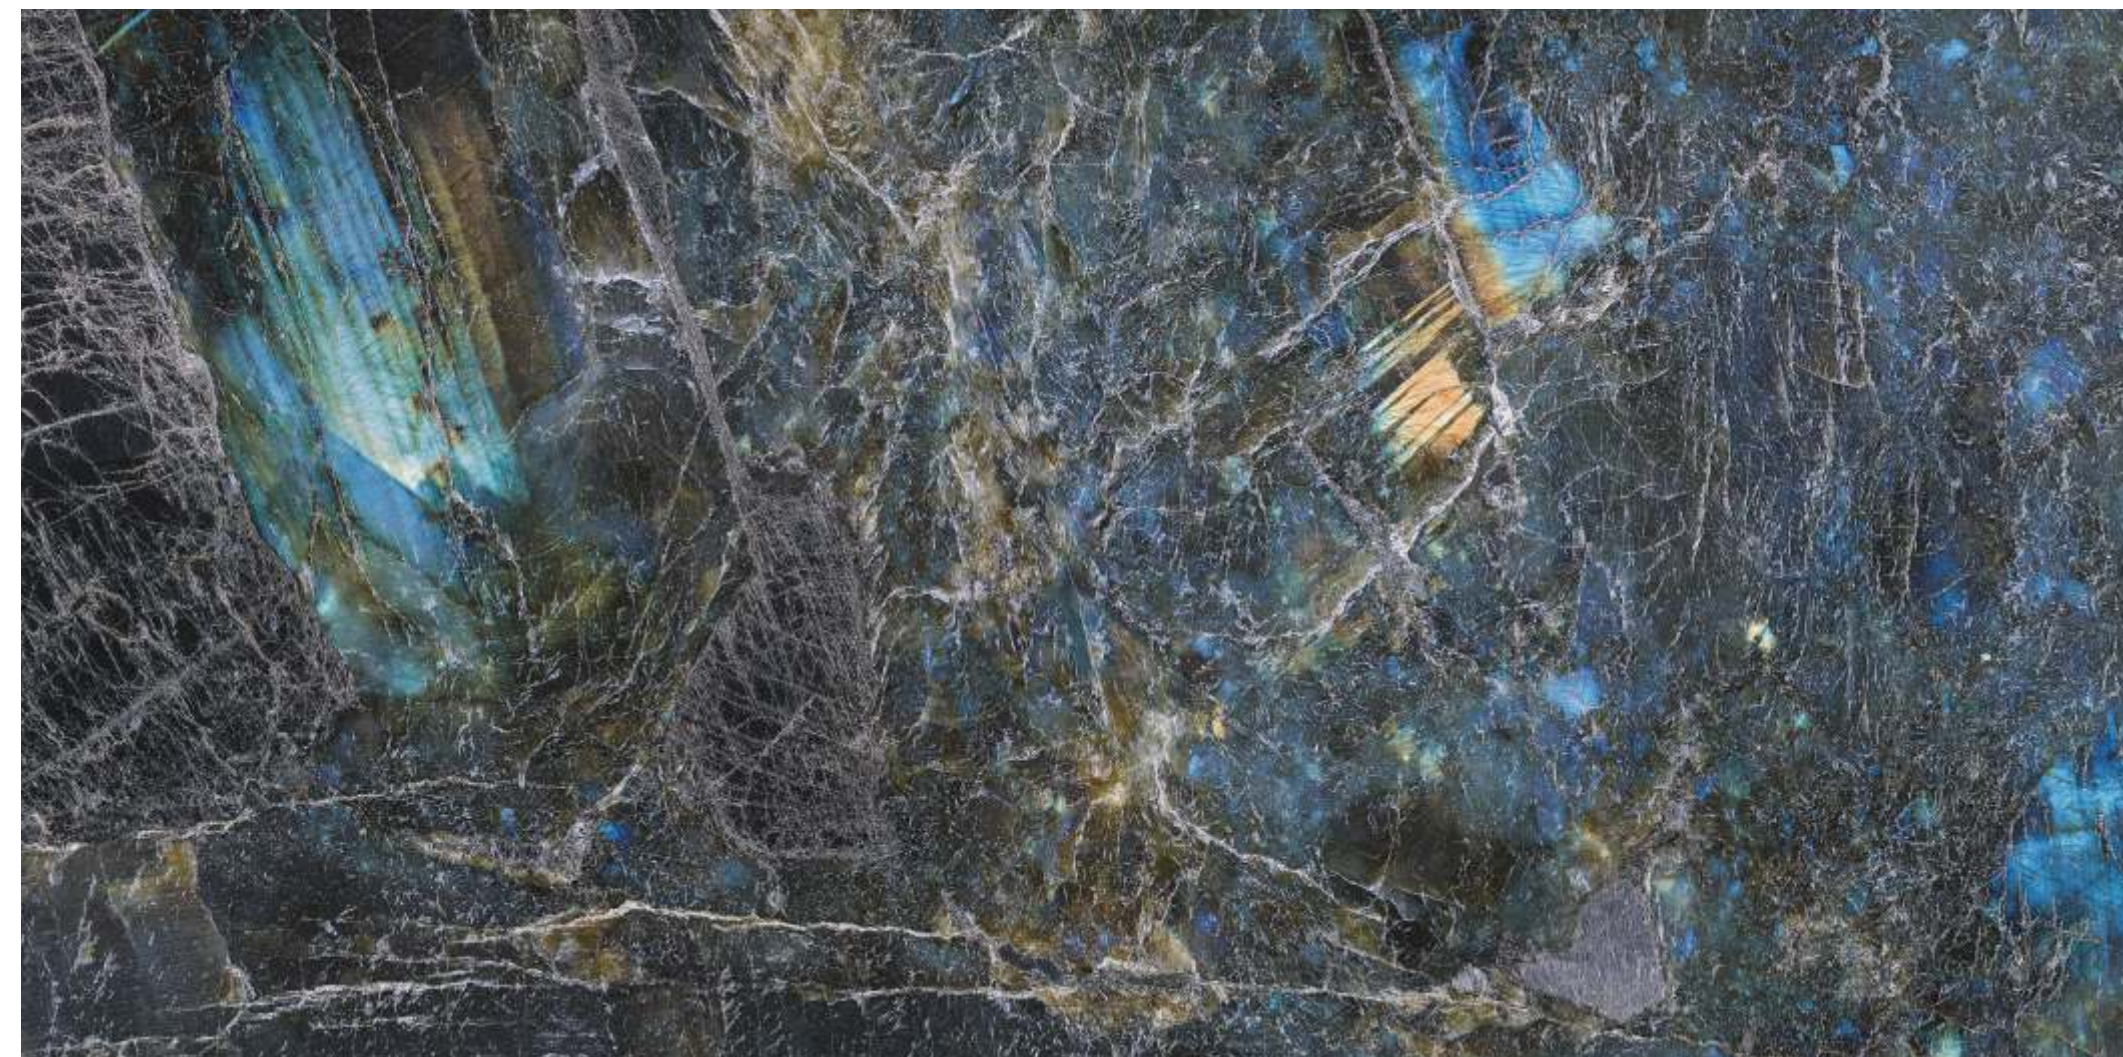

So we present here a confident blend of black 'n' white with some shades. Think of it as if someone just wiped off the night sky as if it was a black board and the erased stars and moon left their imprints upon the dark azure.

BLACK DEFINES FASHION

ELECTRIC BLUE

3008

600 x 1200mm

ELECTRIC BLUE

It's almost unimaginable to have an ensemble collection of any sort that does not include a blue, the colour of Earth, or its shade. And we don't intend to make an exception to this rule.

Since blue reminded us of Earth, we mashed the colour with tinges of green and dashes of black and their shades to give it a feel of rugged earthy landscape clearly showcasing green valleys and naked mountains dotted by water bodies as if seen from the not so far outer space. This is earthy fashion at its very best.

COTTO SILK

3007

600 x 1200mm

COTTO SILK

Cotton and silk rarely make a great pair or so they say.
How can traditional plebeian go with regal aristocracy?
How can the ordinary mix with nobility they ask?
But we seriously wanted to break the myth.

So we designed a new class where the sheer white of cotton
merged amorphously into reddish tinge of silk to make a class
of its own that retained the earthiness of cotton along with
royalty of silk and yet enriched the richness of silk.

TRAVO GOLD

3010

600 x 1200mm

TRAVO GOLD

We just changed a famous old adage.
It now goes like 'Wall that glitters is definitely gold.'
How else can you describe walls that
have an innate golden lustre?
Imagine the wind induced design in the
sand dunes of the African dry lands.

Now spray a generous portion of yellow metal coating
on every grain of sand which then reflects the sunlight
into a dazzle of ubiquitously gilded glare.
Now look at the passionate design of Travo Gold.

FOSSIL GOLD

3006

600 x 1200mm

FOSSIL GOLD

As a tribute to the liquid gold, we decided to dedicate one design to the inspiration from the fossils. In the sepulchral terrain of intermittent rocks fossilized by the detached passage of time,

we bring pre-historic relic to your walls. Let the anachronism of primitive history in your modern life ignite an animalistic passion for fashion in you that was hitherto unknown even to the wildest part of you.

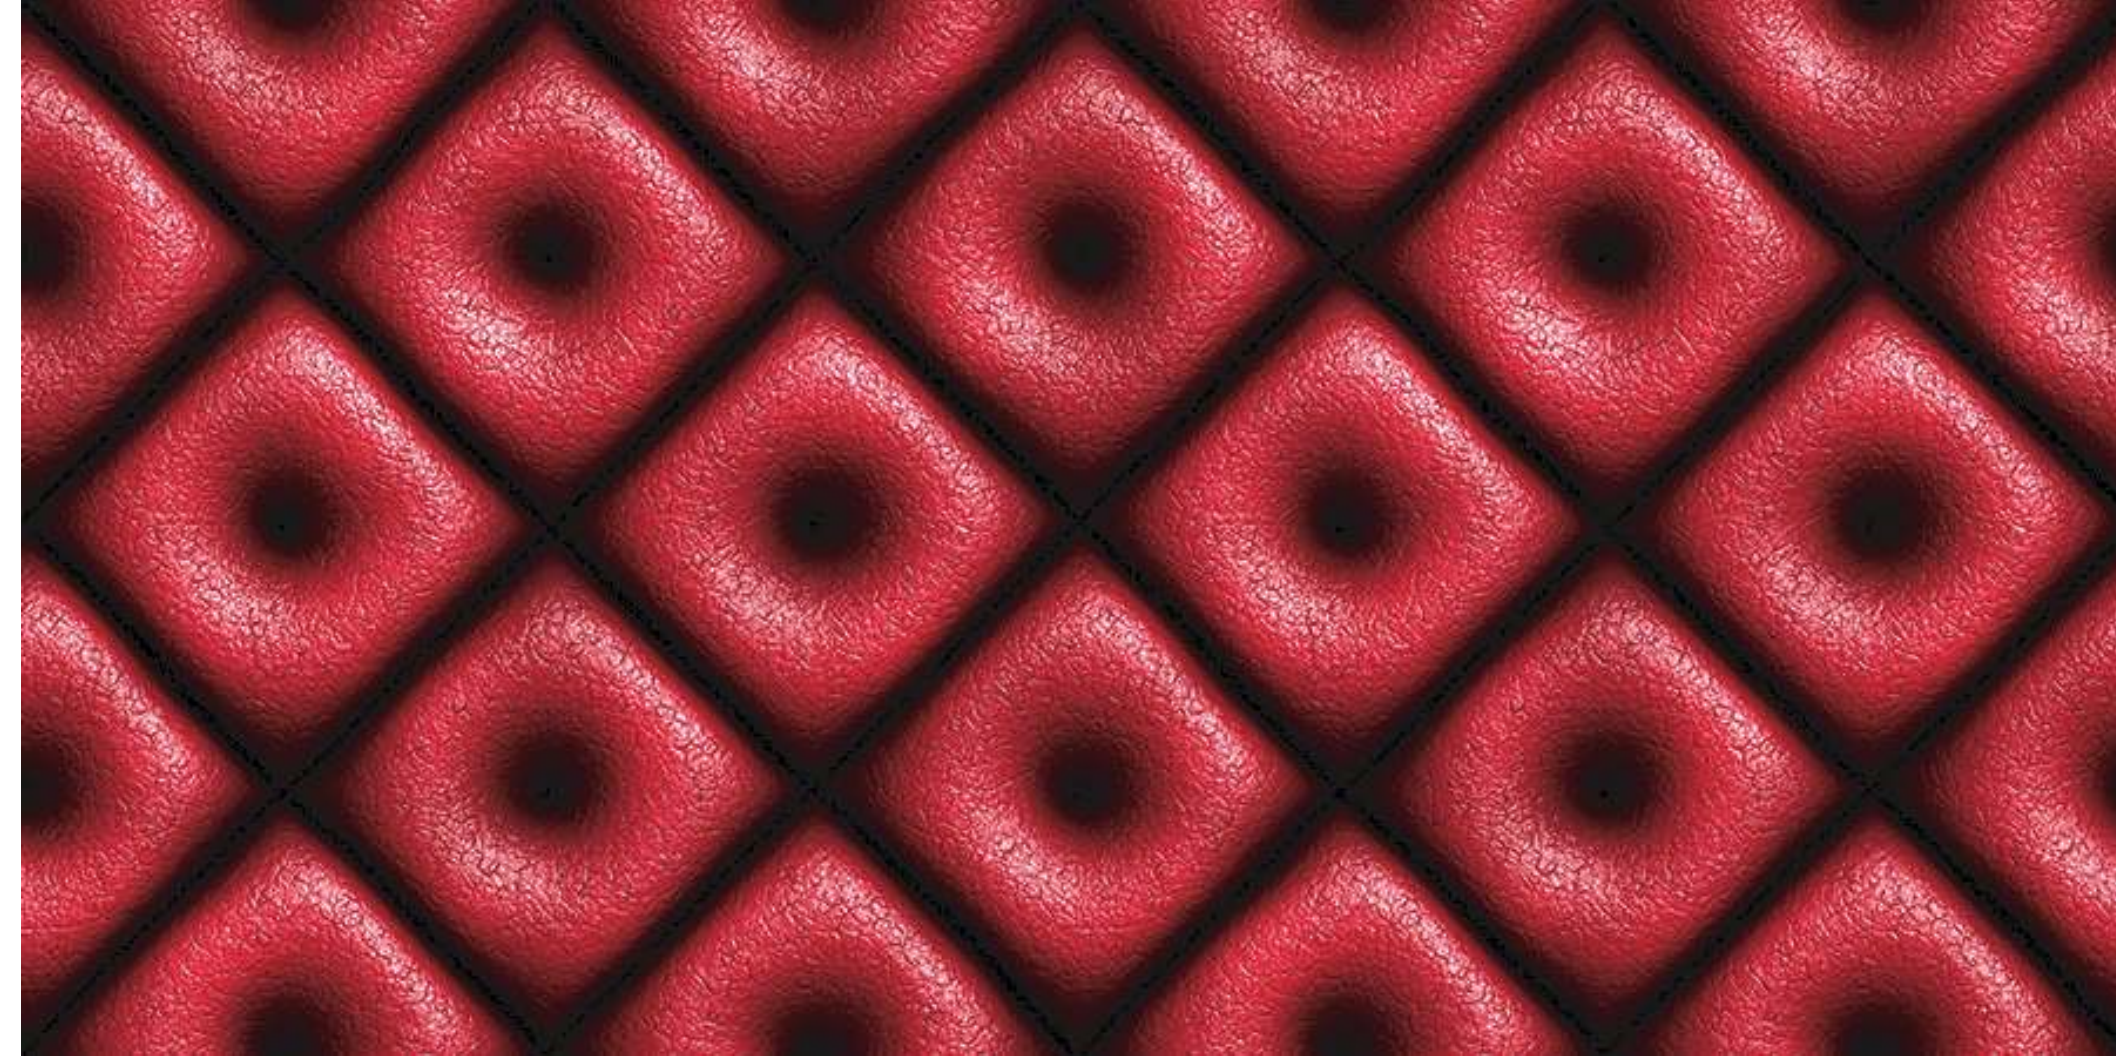

IGNITE YOUR PASSION

RED FIRE

3011

600 x 1200mm

RED FIRE

Imagine the burning red eyes of Shiva lost in the Tandav dance of cosmic upheaval or the passion of a lover pouring through the flaming redness of her eyes or very simply the dazzling lady in red that takes your breath away with oodles of oomph from her matching red lipstick pout and swagger in her gait.

That is the red we have here. Fashionistas can kill to get this colour right. And we are sticking our neck out to say that we just beat them at that game.

FIRE YOUR FASHION

GOLD SERIES

Since time immemorial, gold has been considered as the real - good and bad weather - friend for man. Our giving this collection the epithet of 'Gold' has more to do than just setting the hierarchy.

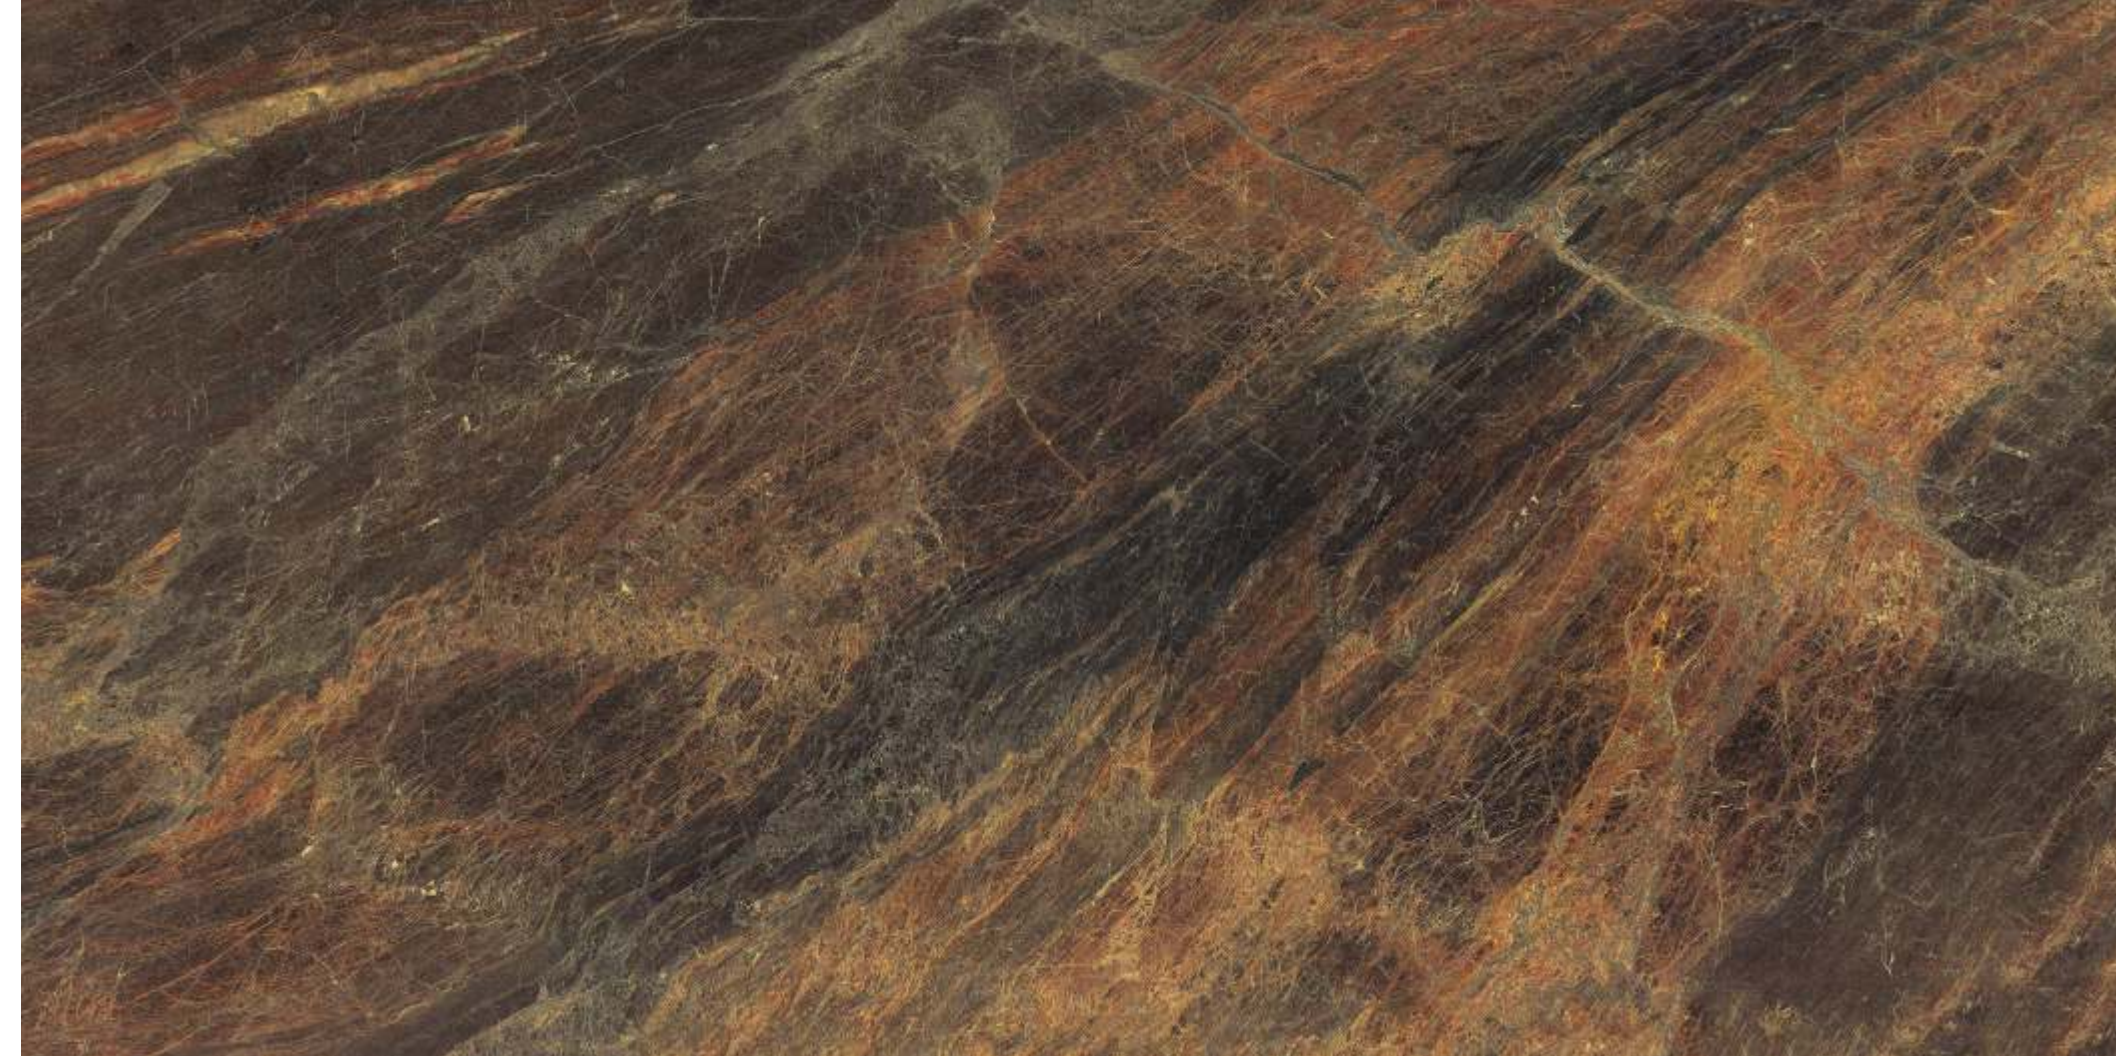

This collection has been such a consistent and loyal friend both for us and our clients that it has more than proven its worth in 'gold'. Enjoy its lustre and bask in its resplendence.

COPPER GRACE

3005

600 x 1200mm

COPPER GRACE

Call it fashion or fad but colouring your hair is definitely the in thing now. Our design of Copper Grace is inspired by fashion that is focussed on such hairdos.

It has streaks of burning copper interspersed with perms of flaming gold on a bed-rock of jet black natural hair spread over a vast canvass of opaque. Let our decor aficionados fashion the couture for your walls.

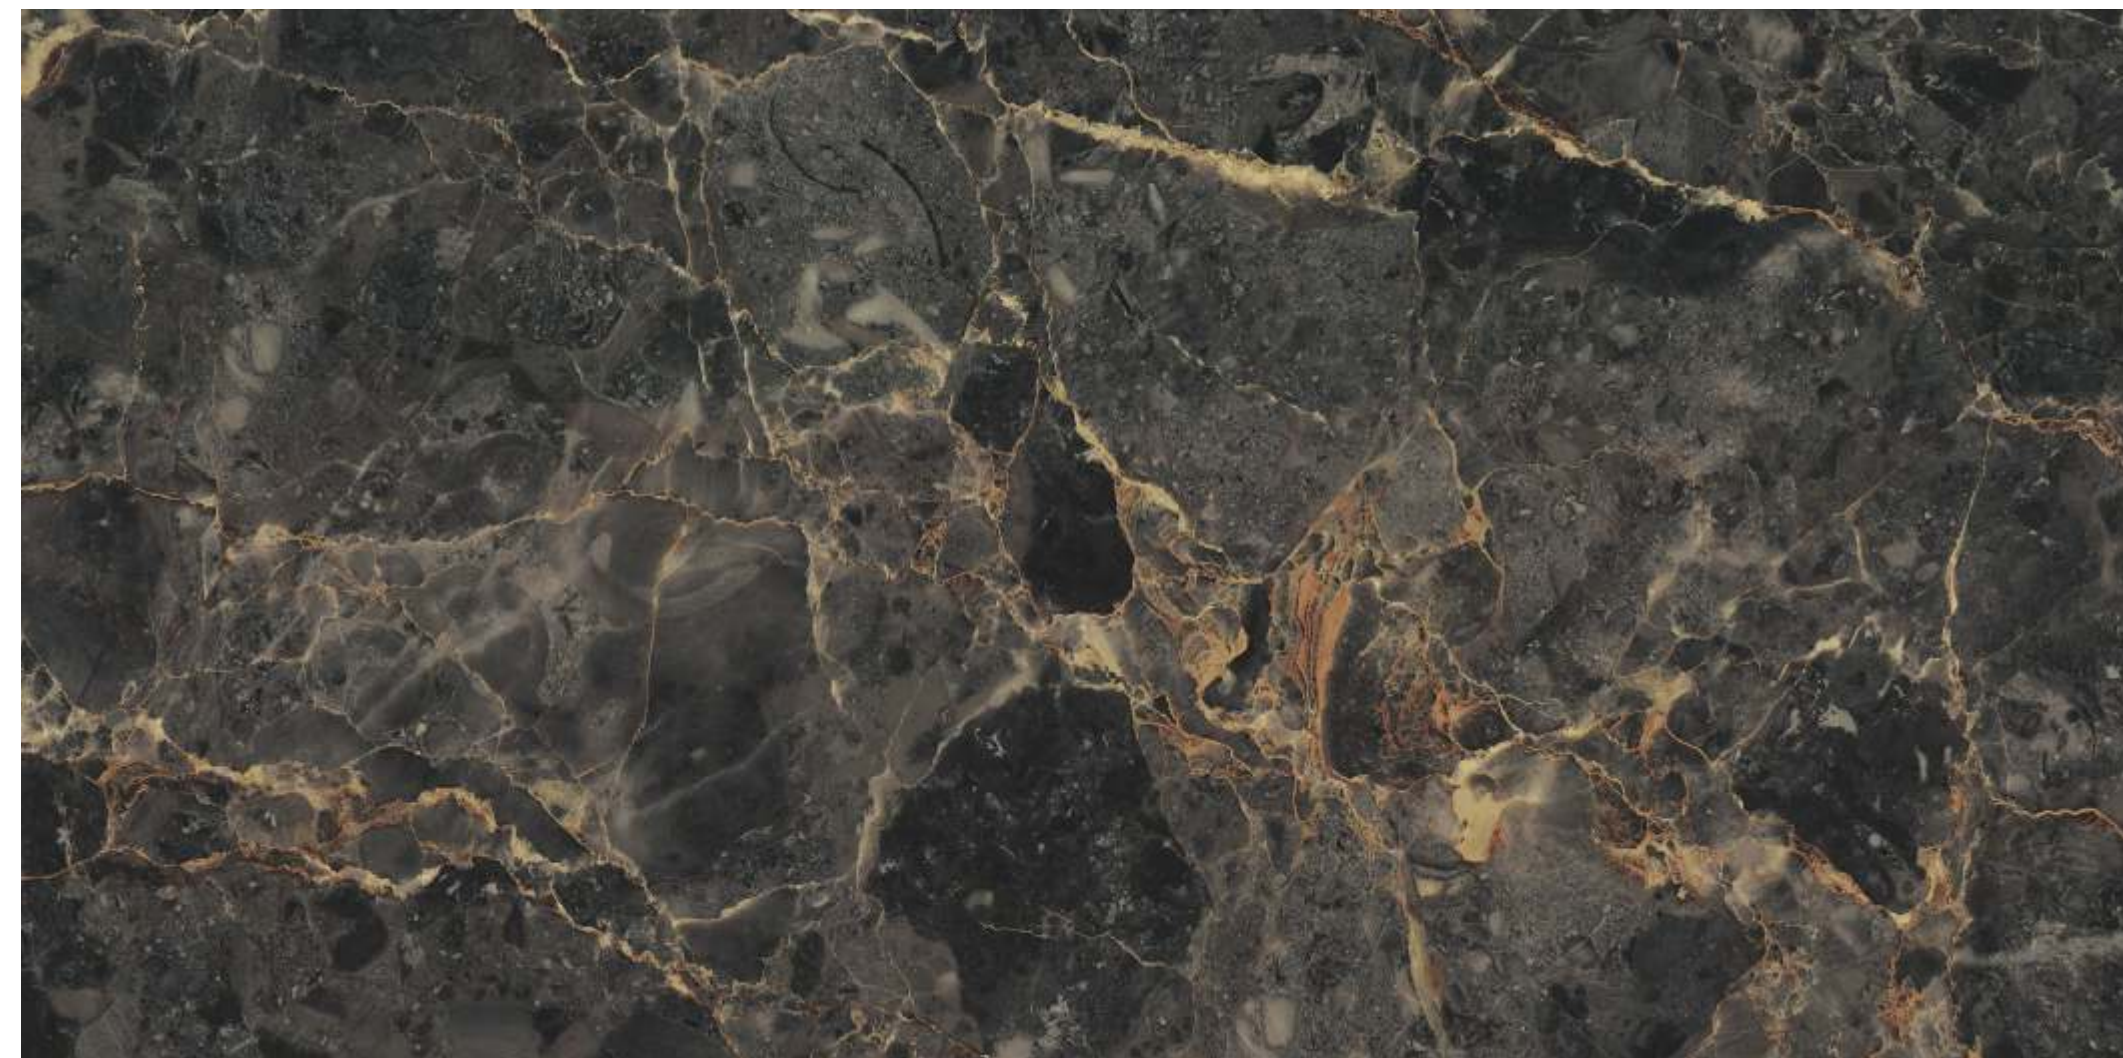

THE GRACEFUL FASHION

MAGIC BLACK

3004

600 x 1200mm

MAGIC BLACK

There is a microscopic world all around and inside us to which we are a macrocosm. Anyone who has used an electron microscope zoomed in on a spick-and-span glass would exclaim 'My God! There is an entire universe out there!'

This design is a tribute to that microcosm that makes us possible, to that invisible world rendered inexistent by our limitation. This design is a magnifying glass that tells you that small is big and inspires you to seek joy in the small. No wonder we call it 'Magic'.

STONEX

3003

600 x 1200mm

STONEX

With this design, we brought a piece of Mars on Earth. The mysterious red planet that has intrigued man since time immemorial, our cosmic neighbour that has been giving us cold shoulders for millions of years and whose barren rocky terrain has hooked many a writers and film makers couldn't evade the attention of our designers.

We captured its story to bring a literally out-of-the-world design to your walls.

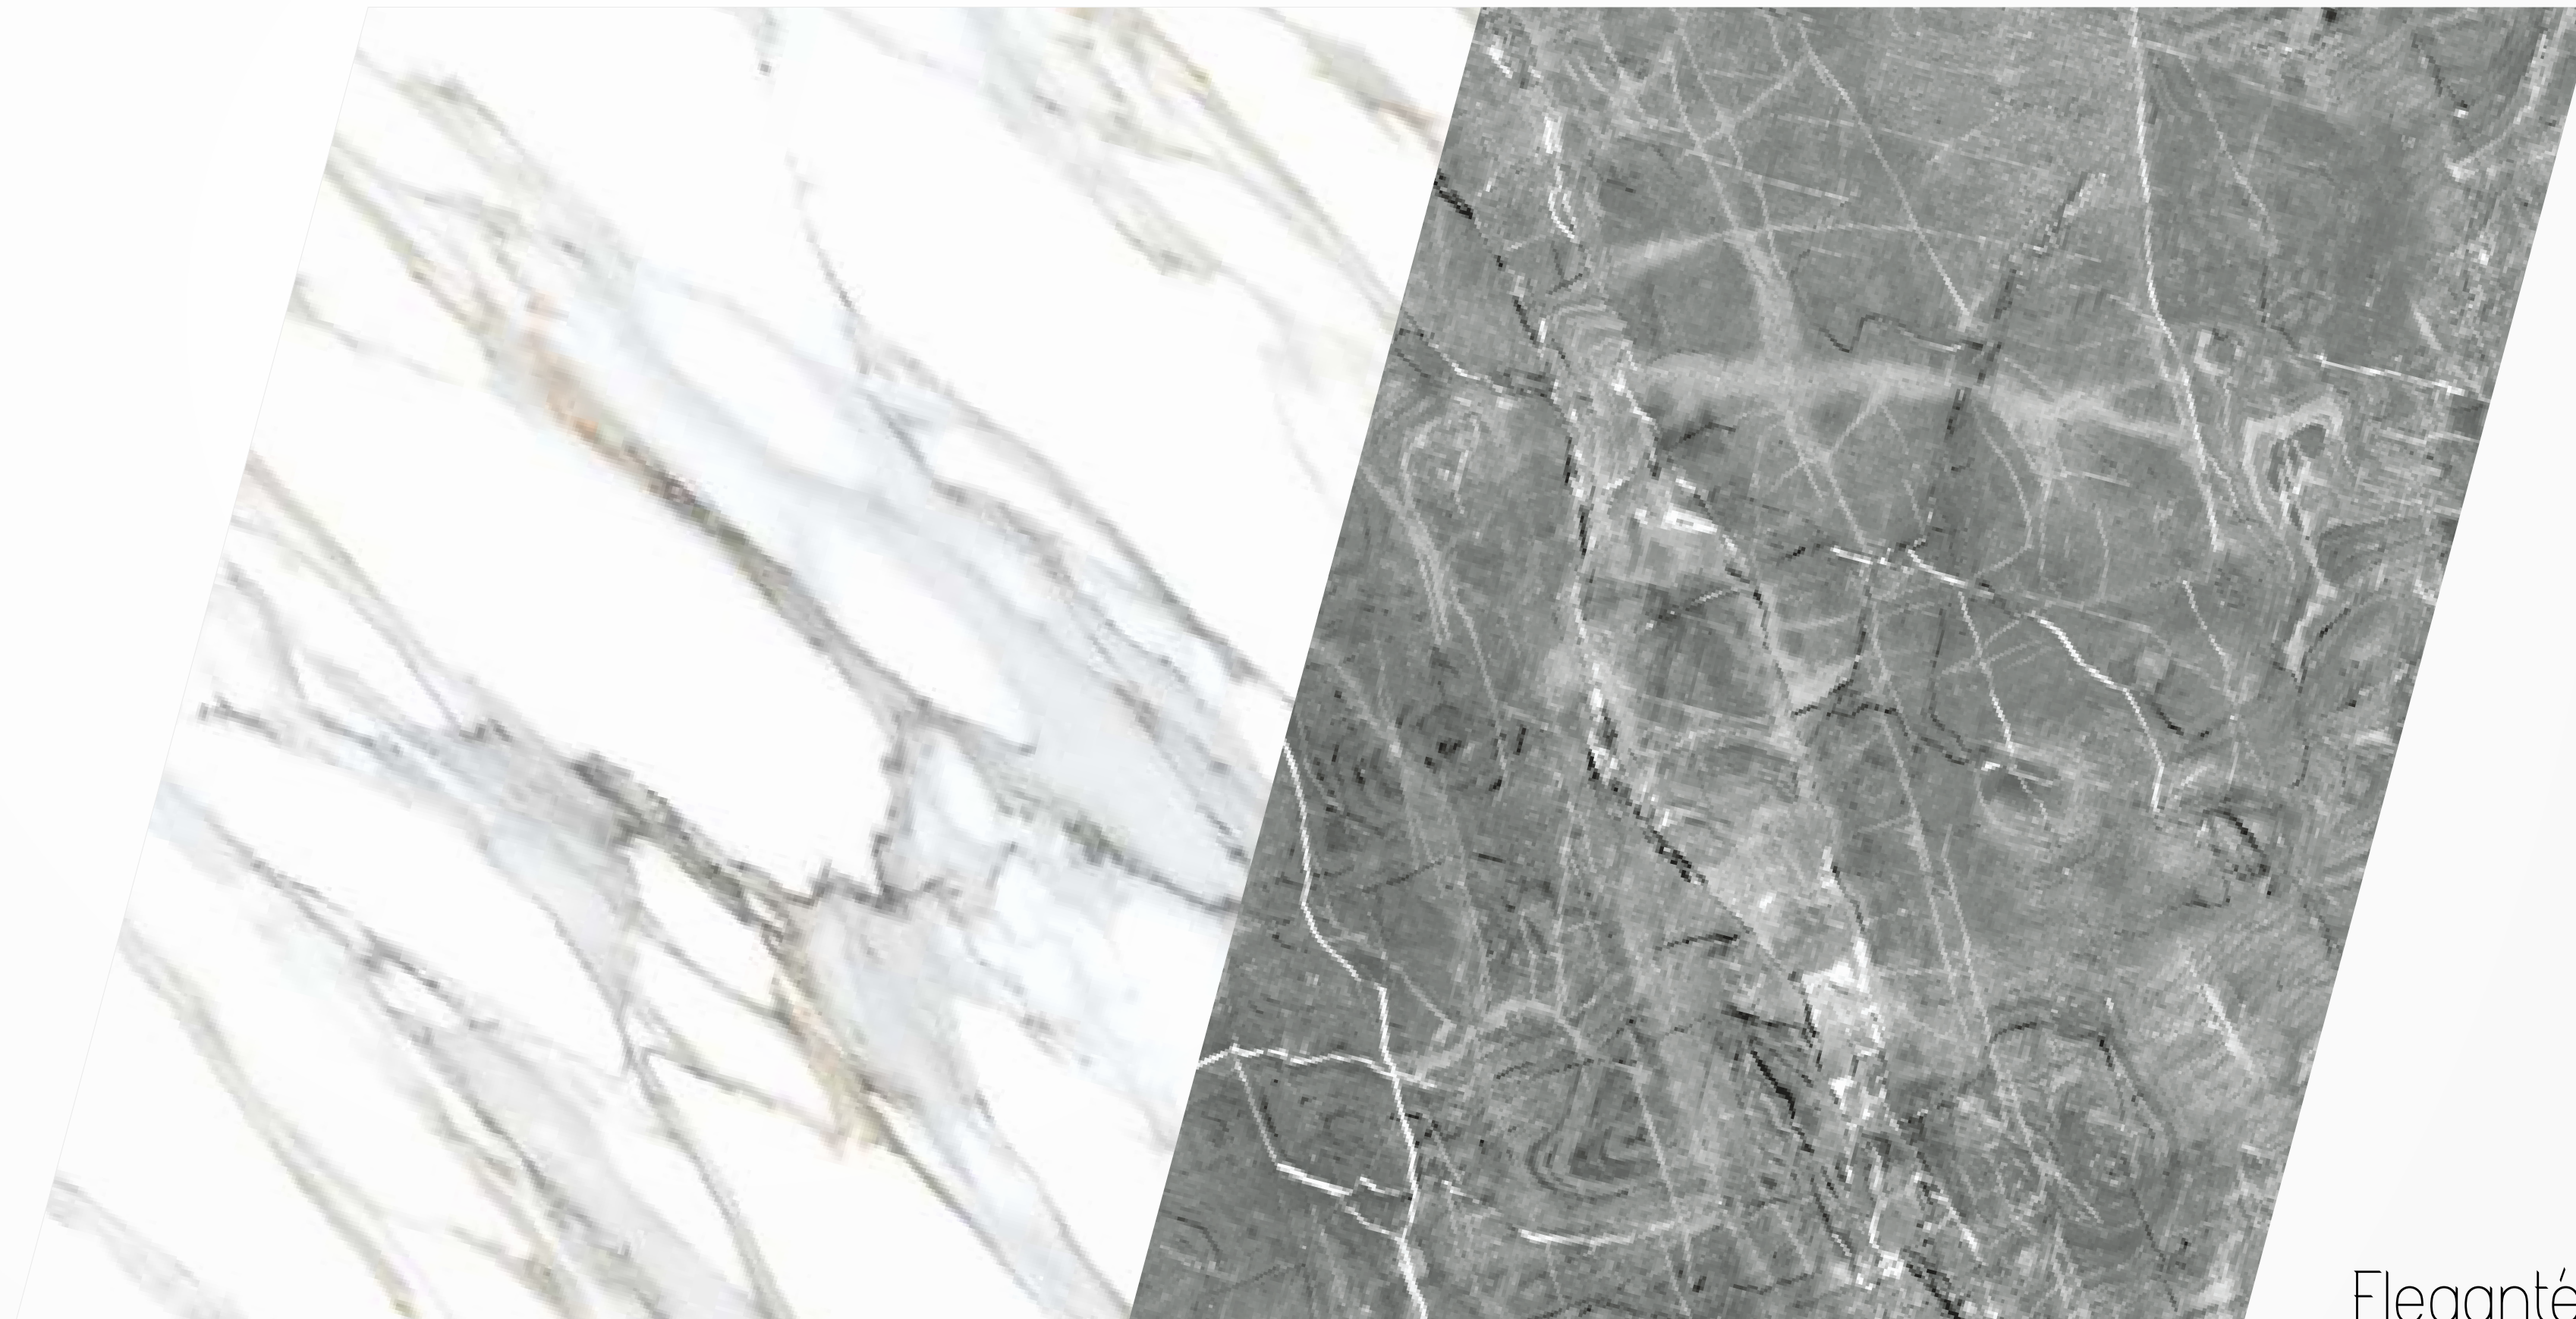

CLASSIC SERIES

In the class of its own, this series presents 'Elegante' in its own special and minimalistic way. This collection is like those quiet party poopers who prefer the solitude of a corner to enjoy their drink silently.

They tap their feet silently without jumping to the center at the first beat of music. They make their presence felt in a non fussy manner. They are courteous, helpful, deep and no nonsense.

it can kiss its way into any ambience that swears by the virtue of classic elegance. Let's break the wall of boredom and revive the classic fashion from your fresh new walls.

ENRICH

Sometimes you don't have to do much to make yourself presentable if you get the essence right. The key to making a good impression is not in trying hard but in easing yourself out and in being comfortable in your own skin.

This design epitomises this thinking as it effortlessly eases its way to pull at your heart strings.

HANDLE WITH LOVE

We love our tiles so much that we treat every single piece like a queen. We pamper them with tender care and groom them in luxurious comfort that a royal lineage deserves.

Every tile is first packed individually, with specially designed cushions protecting it from all sides. The tile is then placed with another such packed piece before covering the pair in a larger package. Consequently, each tile has triple layered protection to prevent its surface from scratches and corners from chip-offs during transportation and storage.

The proof of our pampering lies in the fact that our R&D team invented a special tool called 'iCut Elegante Blade' made from diamond grid for cutting our tiles into the required shapes.

We hope that you will take care of our babies with the same love and care with which we made, transported and delivered them to you. So below we share some easy ways to ensure longevity of tiles.

- Use clean water for washing
- Use good quality non-alcoholic cleansing agent to remove the stains and retain its lustre
- Use soft smooth clean clothe for wiping
- To drill holes in the tiles, use the same diamond tools used for glass cutting
- To cut the tiles, use either waterjet cutting or 'iCut Elegante Blade' designed exclusively for these tiles
