SOL Tiles – an offshoot of Parker Tiles was established to introduce novel ceramic tiling solutions in the industry. A company firmly established on the values of professional excellence, design quality and transparent functions, SOL Tiles has its soul set in heralding new tiling trends that suit the need of the industry keeping comfort, practicability and space utilization in mind.

Bringing years of experience and expertise into practice and with smart amalgamation of creativity and technology, SOL Tiles churns collections that are always in vogue. More than tiles they are artistic representations that fulfill desires of customers. Products that take form after comprehensive R & D backed by stringent quality processes, tiling solutions from SOL Tiles can compete with international brands of Italy and Spain.

An eco-conscious company at heart, the company takes great care in maintaining nature's equilibrium and adopts eco-friendly practices. Also dedicated towards maintaining best relationship with both clients and employees, SOL Tiles works with highest integrity and transparency at every level.

www.soltiles.in

Surface depths are created in aesthetic manner so as to improve design looks and perceptive minds can clearly see a work of art in it's majestic glory.

High Depth Tiles

Surface depressions are deliberately created to create an illusion of surface contrast.

3-D Look

Such surface undulations created a realistic 3-D look that makes tile stand out from the rest.

Color Contrast

Each and every surface segment is colored in a manner that contrasts becomes apparent, yet elegant in its appeal.

Defying Conventions

Ceramics have taken a great leap forward with intricate, high depth designs and quality surface finish. Technological progression moves forward towards higher color density and realistic patterns. Indeed, with passage of time, design perfectionism will continue to scale new heights.

Surface Realism At It's Best

Surfaces are sugar finish and coarsened in a manner that depicts realistic patterns and variety. As also, it improves surface grip and resultant friction. With such finish, tiles gleam brightly and clearly, yet possess hardness & abrasion resistance.

	Number of printing colours	2-4	No limit

TILES FIXING INSTRUCTION

1. The final floated coat of the wall to be tiles should be with wood flat finish and coating should be completed at least two weeks before tiling begins. **2.** The bedding mix used for fixing the tiles must not contain less than three part of sand (100 mesh) to one part of cement by volume. **3.** The bedding mix should be used within its time limit, mix must be discarded. **4.** The tiles must be immersed in clean water for at least as hour before tiling. **5.** The tiles should be fixed as soon as surface water is gone. **6.** Variation of size and weight occurred some times due to clay product.

NETWORK

SOL is geared to make its presence felt everywhere. Be it on domestic front or on international markets, it is our aim to take the extraordinary range everywhere. With determined endeavors we are slowly but steadily making foray everywhere and expanding our reach. Currently, SOL is handling its nationwide and worldwide dealers and distributors network through offices in Ahmedabad, Gujarat and Dubai respectively. Best quality products with international appeal are our USP and we are poised to capture the export markets and hearts with it.
